## ABOUT US

Vinubhai Steel Company was founded in 1944 in Mumbai by Late Shree Vinubhai Kanakiya and Late Shree Gunvantraï Kanakiya, with the support of their brothers. What began as a brokershïp grew into a trusted steel trading enterprise. With our production unit established in Bhavnagar in 1985, we bring over four decades of manufacturing expertise and more than eight decades of industry experience.

Inspired by the strength of steel, we focus on building long-term partnerships driven by excellence, ethical practices, and mutual trust.

## WHY US?

- Family-owned with a personal approach to every client.
- Strong focus on understanding requirements from the start.
- Strict quality control and raw material checks.
- Commitment to a 0% complaint policy.

## OUR FIELDS

- Rolling Mill Division
- Bright Bar
- Forging
- Casting & Investment Casting
- Machining
- Fabrication Work
- Special Customised Items
- Other Custom Products (*as per drawings*)
- Defence Parts & Products

## Rolling Mill

We mainly manufacture rectangular, round, and square bars, along with special profiles and customized sections on a make-to-order basis, including intermediate sizes.

### Capabilities:

Flats: 12×5 mm to 150×50 mm | Squares: 6–80 mm | Rounds: 6–80 mm (heavy rounds on order) | Angles, channels & beams: as required

## Bright Bar

We manufacture rectangular, round, and square bars, special profiles, and customized sections on a make-to-order basis, including intermediate sizes.

Range: Flats 12×5 to 150×50 mm | Squares 6–75 mm | Rounds 6–75 mm

## Forging

We specialize in **forged components** used across **garden equipment** and **machinery**, including **Forging parts of Arms & Ammunition, Guides, Pins, Hooks, and other precision parts**. All products are manufactured as per client drawings and specifications, in various material grades.

## Casting & Investment Casting

We specialize in castings and investment castings, producing custom, high-quality components such as **Gear box body, Mattocks, temper heads, engine parts, and other precision cast items in various grades**, strictly to customer specifications.

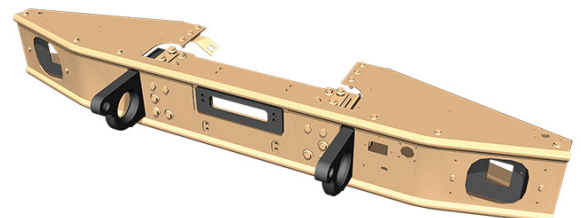

## Machining

All products undergo **precision machining** after casting, forging, and fabrication to ensure ready-to-use delivery. This ensures accurate **fitment, easy installation, and reliable performance**, saving customers time and effort.

## Fabrication

We undertake turnkey fabrication projects, offering end-to-end solutions from design to execution. Our expertise includes **fuel tank with assembly for battle tanks, custom-fabricated products, and specialized pushbars for armoured vehicles**, all made to precise customer requirements.

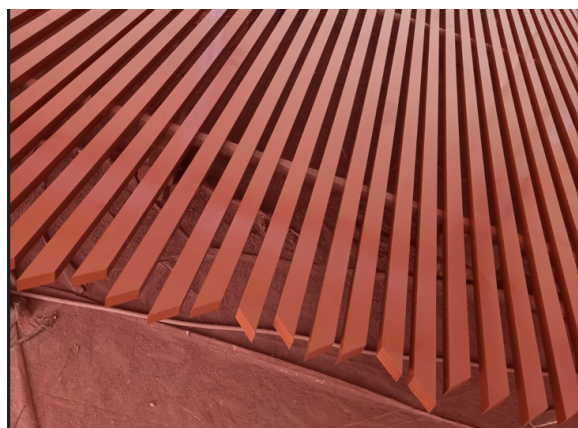

## Specialised Products

Vinubhai Steel is a trusted **DRDO industry partner, recommended by CVRDE**, with experience in manufacturing **MBT Arjun tank louvers, assembly fuel tanks, and composite panels**, all meeting rigorous ballistic standards. We also make various customised profile bars.

## EOT Crane Rails

Vinubhai Steel has a strong presence in the **EOT (Electric Overhead Travelling) Crane Rail** sector across the **UAE, Saudi Arabia, Qatar, Thailand, Oman** and many other countries . Our expertise extends to rolling, bright bars, crane rails, and other engineered components, ensuring high quality, precision, and reliability across all applications.

## Other Products

We supply UN-certified mild steel and stainless steel jerrycans (5 L, 10 L, 20 L), including screw-cap variants, along with jerrycan accessories, Rhinocans, and security boxes. Designed to meet stringent operational requirements, our products are suitable for use by defence forces worldwide. Custom colours and branding are available.
